EU Declaration of Conformity

Declares under our sole responsibility that:

CG1001 Series – Intelligent Climate Sensor

When installed, maintained and used in applications for which they are designed, in compliance with the installation standards and manufacturer's instructions, they comply with the provisions of the following relevant European Union harmonization legislation, if applicable:

Low Voltage Directive (LVD) 2014/35/EU

EN 60529:1991 Degrees of protection provided by housing (IP code). Amendments AC: 1993 to EN 60529

Electronic Directive Compatibility (EMC) 2014/30/EU

EN 61000-6-1:2007 Electromagnetic compatibility (EMC) – Part 6-1: Generic standards – Immunity for residential, commercial and light-industrial environments

EN 61000-6-3:2007 Electromagnetic compatibility (EMC) – Part 6-3: Generic standards – Emission standard for residential, commercial and light industrial environments Amendments A1: 2011 and AC: 2012 to EN 61000-6-3

EN 61326-1:2013 Electrical equipment for measurement, control and laboratory use - EMC requirements - Part 1: General requirements

EN 61326-2-3: 2013 Electrical equipment for measurement, control and laboratory use - EMC requirements - Part 2-3: Special requirements - Test configurations, operational conditions & performance requirements for converters with integrated or non-integrated signal conditioning.

WEEE Directive 2012/19/EU – Waste Electrical and Electronic Equipment (WEEE)

RoHS Directive 2011/65/EU Restriction to use certain Hazardous Substances in electrical/electronic equipment

The products must be installed and maintained by qualified personnel in accordance with local regulations. These statements are only valid when the devices are used and installed in accordance with the product mounting instructions. The products, assemblies or sub-assemblies covered by this Declaration of Conformity must not be put into service until the machine(s) into which they are incorporated has been certified to comply with the provisions of this Directive(s). This declaration is only necessary when the product is to be incorporated into a machine or system (for example a safety component).
