

# Datasheet

**ruck**

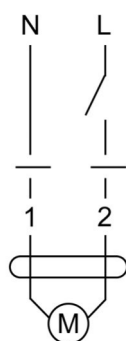

Product type: **Motor shut-off flap**  
 Product ID: 172062  
 Product name: MAK ROTO K 20000 H FR

|        |    |      |
|--------|----|------|
| A      | mm | 2218 |
| B      | mm | 1114 |
| C      | mm | 115  |
| Weight | kg | 45.8 |

- Combined outdoor and exhaust air multileaf damper
  - With spring return actuator, AC 230V, 4Nm
  - For direct mounting on the device
  - Housing made of sheet steel, galvanized
  - Flange P 30
  - Connection cable 1m length
  - Airtight according to EN1751 class 2
  - Avoids cold air drop in the duct network when the unit is not in operation
  - Protects device components and heating/cooling coils from frost damage
- Duct connection 2100 x 1000mm
