

Sliding Brackets (RN235/RN221)

Materials and treatment

- Merk: ClimaConnect
- Material: Galvanized steel with Powder coating RAL9002
- Fasteners including bolts, nuts and washers.

Sliding Brackets (RN235/RN221)

The ClimaConnect wall bracket is designed for secure and safe mounting of outdoor air conditioning and heat pump units. The robust construction can carry up to 140 kg and is resistant to harsh conditions, ensuring long-term reliability. Installers benefit from the simple mounting process, thanks in part to the included mounting materials. The wall bracket is suitable for both residential and commercial installations and provides a solid foundation for any HVAC setup.

Other details and features

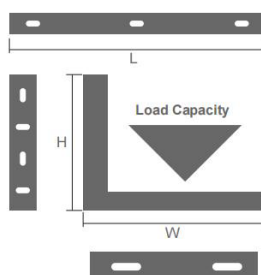

● Professional level

Ensure that the support is evenly stressed to guarantee the working efficiency of the airconditioner.

● Load Capacity

140 kg, certified by TÜV to withstand 3 times the rated load.

● Installation Kit

Ready-to-use with all-inclusive configuration.

● Pre-assembled

Factory Pre-Assembled, Fast On-Site Installation

Certified Welds

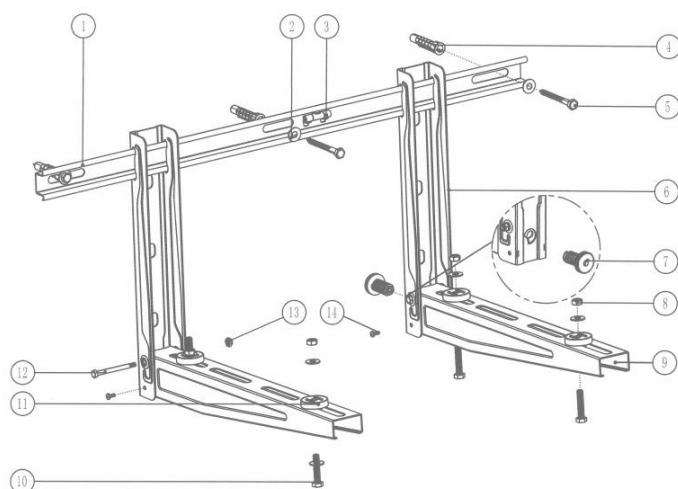

EN1090 is a European standard for welding of steel and aluminum structures, ensuring the quality and safety of welded products, which is crucial for the long-term safety of construction projects.

Dacromet fasteners

Bolts and nuts are treated with Dacromet and are able to withstand a salt spray test of 300 hours. It is several times that of traditional galvanizing, effectively resisting corrosion in harsh environments, with a longer service life and lower maintenance and replacement costs.

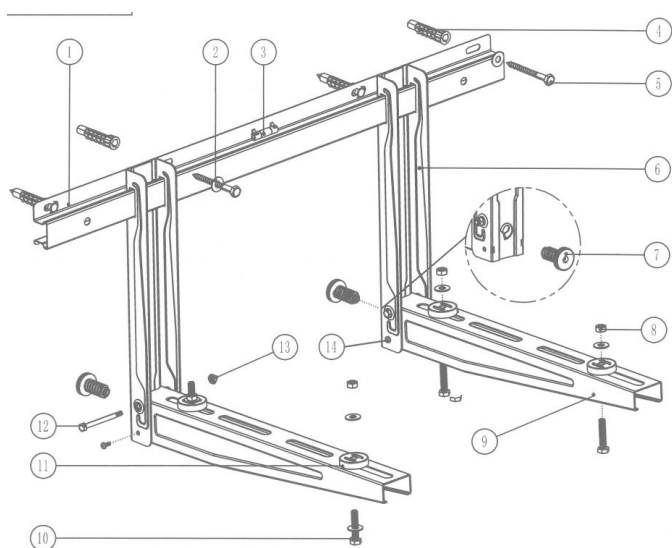

Sliding Brackets (RN235/RN221)

Components List - RN235

- 1 Cross bar: Galvanized steel T=1.5mm
- 2 Metal washer: 11pcs
- 3 Level bubble: 1pc
- 4 Plastic plugs: 3pc
- 5 Hexagon Head Wood Screws: 3pcs M8x75
- 6 Vertical bear: Galvanized steel T=1.8mm 2pcs
- 7 Adjustive screws: 2pcs PP black
- 8 Hexagon Nuts: 4pcs M8
- 9 Arms: 2pc Galvanized steel T=1.5mm
- 10 Hexagonal head fully threaded bolt: 4pcs M8
- 11 Rubber pads: 4pcs
- 12 Hexagonal head half threaded bolt: 2pcs M6
- 13 Autolock nuts: 2pcs M6
- 14 Triangle self-tapping screws: 4pcs M4

Components List - RN221

- 1 Cross bar: Galvanized steel
- 2 Metal washer: 12pcs
- 3 Level bubble: 1pc
