

Product description

WOOFI is the innovative odour remover developed by Errecom to eliminate pet odour from surfaces and rooms.

Thanks to its special formulation, WOOFI does not cover up the odour but incorporates it irreversibly, purifying the environment in which it is dispensed. It does not annoy pets, does not damage fabrics or materials and is effective for a long time.

The handy trigger format makes the application easy and fast, whether directly on the surfaces to be treated or in the air to be purified. It acts quickly, leaving a pleasant scent. It's not necessary to ventilate the room after using WOOFI.

Before use, carefully read the warnings contained on the safety data sheet. Do not apply directly to the pet.

Features

- Professional use.
- Ready to use.
- Does not cover the odour but incorporates it irreversibly.
- Long-term efficacy.
- Safe for pets.
- Safe for materials and surface.

Surface treatment with trigger spray bottle

1. Place the dispenser 30 cm from fabrics and surfaces to be treated.
2. Dispense the product in such a way as to cover the area with a thin layer.
3. Leave the product to act for a few seconds.
4. Does not require rinsing.

Room and interior treatment

1. Dispense Woofi upwards in proportion to the intensity of the odour to be treated.
2. Allow Woofi to act for a few seconds, so that it purifies the air contaminated by unpleasant odours.
3. It is not necessary to ventilate the room after use.
