

The image shows a standard European energy label for a mechanical ventilation unit. It features a blue header with the EU flag, the word 'ENERG' in large letters, and its translations in Russian (энергия), Greek (ενεργεια), and Chinese (Y IJA, IE IA). Below this, the brand name 'ORCON' and model 'HRC-220-15 BR' are printed. The main part of the label is a vertical scale of energy efficiency classes from A+ (green) to G (red). A black arrow points to class 'A'. Below the scale, two boxes provide specific data: a sound power level of 57 dB with a speaker icon, and a flow rate of 220 m³/h with up and down arrows. At the bottom, there is a line of text in multiple languages, the year '2018', the standard number '1254/2014', and a small reference code '95101460 R00'.
